EasyController – Controls one to hundreds of zones

\$1,499.00

Only a single cable and no controller upgrades for extra zones.

The EasyController is fully screen based – no confusing knobs or dials.
A Windows 10 compatible (HDMI input) screen 15" or larger with
resolution 1920 x 1080 is recommended plus a keyboard.

High definition screen 20" (1920 x 1080) + mouse & keyboard – POA

OR

22" touch screen + stand, mouse & keyboard approximate cost – POA

Transformer

\$59.00

This transformer is suitable for most irrigation system with up to about 50
irrigation zones. For systems also controlling lighting the required
transformer capacity will depend on the maximum current drain when the
lighting is turned on.

Larger professional transformer approximate cost \$155 - POA.

EasySwitches

\$198.00

Control 2 outlets/ports/zones. Each of the outlets is independent and can
control irrigation, low current 12volt LED lighting, 240VAC relay for control
of mains appliances, 24VAC pump start relays (any number of pumps).

Cable 6mm (per metre)

\$3.50

*The system uses a single 2-core cable with industrial control technology used
in over 100 million devices worldwide.*

This low voltage cable (also available at some electrical suppliers) is
sufficient for almost all installations and can be run for hundreds of meters
and branched if desired. It is nearly the thickness of a lead pencil, so it
resists physical and UV damage but is best buried to protect it.

Annual software maintenance

\$90.00

Provides upgrades and enhancements to the system. Free for first year.

All prices are AUD Ex GST

Note: Control of 240VAC mains devices requires connection by a qualified electrician.
